

Notes from Racers Meeting

1. The racing schedule for this summer will be the same as in the past, 3 weekends for each of the Spring, Summer, and Fall series, 12 races scheduled per series. The dates are posted on the web site.
2. Start times for the Spring and Fall will be: 12:25 first gun on Saturday, 11:25 first gun on Sunday.
3. Start times for the Summer will be: 16:00 first gun on Saturday, 15:00 first gun on Sunday.
4. Fleets for the Spring will be PHRF A bellow 200, PHRF B 200 and above, Capri 22. The Capri 22s will start with the PHRF A fleet, but be scored as a fleet. We will review the scoring after the Spring series to see if the Capri 22s could be included in the PHRF A fleet.
5. I will set up some training / information sessions before racing, and at a potluck. Dates and times TBD.
6. There will be some RC training at the lake in May. SAIL has there RC training program on March 12 at Cherry Creek, this is a great day of training.
7. Nancy VanDeMark is doing the RC scheduling; you need to contact her to sign up. I am tiring to get an on line sign up set up. Every racer needs to do at some RC work.
8. There is a web forum thread started about weeknight racing. Russ Stamets is the person to contact if you are interested.
9. Some discussion about the mark locations. I will get some people together to work this out.
10. I will pole the membership at the Winter meeting about sponsoring the Governors Cup at Carter this fall.
11. John McGinley relayed a request from the Ogallala Yacht Club for help with the Trans Mac and the Nebraska Governors Cub in the 2006 season. There was interest in helping out if there is water.
